

Supervisory Brief

Information for nuclear &
embedded supervisors

Reminder: Restrictions on Carpooling and Other Travel During COVID-19

DATE: October 8, 2020

FROM: Dave Rhoades, COO, Fleet Operations

INSTRUCTIONS: *Please communicate the following information with your employees and contract workers as soon as possible.*

As part of our social distancing expectations designed to protect the health of every worker, we are reminding all employees and contractors to follow these guidelines if they must travel and/or stay overnight in a location away from home for work-related activities:

- **Avoid sharing accommodations** (e.g. hotel rooms, rental homes, Airbnb) **and vehicles** with another person (other than someone in your own household).
- **Wear a mask** when not in your room and 6-foot social distancing cannot be maintained.
- **Wipe down commonly touched surfaces** in hotel rooms/rental homes.
- **Avoid common areas** such as hotel gyms, buffets, pools, computer kiosks, etc.
- When sharing a vehicle with others is unavoidable, **avoid sitting next to the driver or having more than one person in the back seat, and wear a mask.**
- **Avoid public transportation** (trains, buses, taxi, uber, etc.) whenever possible; if required, wear a mask when on public transportation

Please refer to Exelon's policy on travel restrictions during pandemics, HR-AC-98, for additional guidance. For the latest information on state COVID-19 guidelines, visit the following sites:
